1. NATURE OF OPERATIONS AND GOING CONCERN

New Break Resources Ltd. (the “Company” or “New Break”) is a Canadian mineral exploration company currently engaged in the acquisition, exploration and evaluation of mineral properties in Canada. All of the Company’s mineral property interests are currently in the exploration and evaluation stage.

The Company was incorporated under the name “8861587 Canada Corporation” under the laws of Canada on April 18, 2014. Effective December 28, 2018, the Company changed its name to New Break Resources Ltd. On November 24, 2021, New Break was also registered as Extra-Territorial in Nunavut, Canada. On September 7, 2022, the Company became listed on the Canadian Securities Exchange (the “CSE”) and trades under the symbol NBRK. On March 13, 2026, the Company became listed on the Frankfurt Stock Exchange and trades under the symbol O91. On March 25, 2026, the Company became listed on the OTCQB Venture Market (“OTCQB”) and trades under the symbol NBRKF. The address of the Company's corporate office and principal place of business is 110 Yonge Street, Suite 1601, Toronto, Ontario, M5C 1T4, Canada.

These financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern, and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements. Such adjustments could be material. It is not possible to predict whether the Company will be able to raise adequate financing or to ultimately attain profitable levels of operations. Changes in future conditions could require material write downs of the carrying values.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that the exploration programs will result in profitable operations. The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain mineral reserves that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the establishment of a sufficient quantity of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition of these assets.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, indigenous claims, and non-compliance with regulatory, environmental and social licensing requirements. The Company’s assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

The Company has not realized a profit from operations and has incurred expenditures related to property exploration, resulting in a cumulative deficit of \$5,247,799 as at March 31, 2026 (December 31, 2025 - \$4,721,611). The recoverability of the carrying value of mineral properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its property interests on an advantageous basis. Management cannot provide assurance that it will be successful in future financing activities or be able to execute its business strategy. As at March 31, 2026, the Company had current assets of \$3,791,488 (December 31, 2025 - \$4,289,679) to cover current liabilities of \$390,916 (December 31, 2025 - \$116,129), exclusive of non-cash flow-through share premium liability.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Statement of Compliance

These condensed interim financial statements (the “financial statements”) have been prepared in accordance with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

Basis of Presentation

These financial statements have been prepared on the historical cost basis, except for financial instruments designated at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These financial statements do not include all the information required for full annual financial statements and therefore should be read in conjunction with the audited financial statements of the Company as at and for the year ended December 31, 2025. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company’s financial position and performance since the last audited annual financial statements. Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates.

These financial statements are presented in Canadian dollars, which is the Company's functional currency.

Material Accounting Policies

The material accounting policies adopted by the Company in the preparation of these unaudited condensed interim financial statements are consistent with those disclosed in note 3 of the Company’s audited financial statements and related notes for the year ended December 31, 2025.

Recent Accounting Pronouncements

The Company adopted the following accounting standards and amendments to accounting standards, effective January 1, 2026:

In May 2024, the IASB issued amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures. The amendments have been adopted by the Company, however the amendments did not result in any changes to the financial statements.

Changes in Accounting Standard Not Yet Effective

In April 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements* (“IFRS 18”), which replaces IAS 1 *Presentation of Financial Statements*. IFRS 18 introduces new presentation and disclosure requirements intended to improve the consistency and comparability of financial information, with a primary focus on the statement of profit or loss. The changes include the requirement to classify income and expenses into three new categories – operating, investing and financing – and present subtotals for operating profit or loss and profit or loss before financing and income taxes.

IFRS 18 also provides enhanced guidance for aggregation and disaggregation of information in the financial statements, introduces new disclosure requirements for management-defined performance measures (“MPMs”) and eliminates classification options for interest and dividends in the statement of cash flows.

IFRS 18 is effective for annual periods beginning on or after January 1, 2027, and is to be applied retrospectively. The Company is currently assessing the impact of the standard on its financial statements.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (Continued)

Approval of the Financial Statements

These financial statements of the Company for the three months ended March 31, 2026 and 2025 were approved and authorized for issue by the Board of Directors on June 1, 2026.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENT

Use of Estimates and Judgment

The preparation of financial statements in conformity with IFRS requires that management make judgments, estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the financial statements. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities, profits and expenses. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended December 31, 2025.

4. FINANCIAL INSTRUMENTS

The Company manages its exposure to a number of different financial risks arising from its operations as well as its use of financial instruments including market risks (commodity prices, foreign currency exchange rate and interest rate), credit risk and liquidity risk through its risk management strategy. The objective of the strategy is to support the delivery of the Company's financial targets while protecting its future financial security and flexibility.

Financial risks are primarily managed and monitored through operating and financing activities and, if required, through the use of derivative financial instruments. The Company does not use derivative financial instruments for purposes other than risk management. The financial risks are evaluated regularly with due consideration to changes in the key economic indicators and up to date market information.

Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of the business. The Company may use derivative financial instruments such as foreign exchange contracts and interest rate swaps to manage certain exposures. These market risks are evaluated by monitoring changes in key economic indicators and market information on an ongoing basis.

Commodity Risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company monitors commodity prices as they relate to gold and the stock market to determine the appropriate course of action to be taken.

4. FINANCIAL INSTRUMENTS (Continued)

Liquidity Risk

Liquidity risk encompasses the risk that a company cannot meet its financial obligations in full. The Company's main source of liquidity is derived from its common stock issuances. These funds are primarily used to finance working capital, operating expenses, capital expenditures and acquisitions.

The Company manages its liquidity risk by regularly monitoring its cash used in operating activities and holding adequate amounts of cash. There is no certainty of the Company's ability to secure adequate funding through the completion of additional financings or asset sales

As at March 31, 2026, the Company held current assets of \$3,791,488 (December 31, 2025 - \$4,289,679) to settle current liabilities of \$390,916 (December 31, 2025 - \$116,209), exclusive of non-cash flow-through premium liability.

Sensitivity analysis

The Company's marketable securities are denominated in Canadian dollars and are subject to fair value fluctuations. As at March 31, 2026, if the fair value of the Company's marketable securities had increased/decreased by 10% with all other variables held constant, loss for the three months ended March 31, 2026, would have been approximately \$150,000 lower/higher.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Cash bears interest at market rates. In the event that the Company held interest bearing debt, the Company could be exposed to interest rate risk. The Company does not have any interest-bearing debt. Other current financial assets and liabilities are not exposed to interest rate risk because of their short-term nature.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash. The Company has reduced its credit risk by investing its cash with a Canadian chartered bank.

The Company's financial assets and liabilities as at March 31, 2026 and December 31, 2025 were as follows:

| | Amortized Cost | FVPL | Total |
|--|----------------|--------------|--------------|
| December 31, 2025 | | | |
| Financial assets | | | |
| Cash | \$ 2,607,074 | \$ - | \$ 2,607,074 |
| Other amount receivable | \$ 201,000 | \$ - | \$ 201,000 |
| Investments | \$ - | \$ 1,326,000 | \$ 1,326,000 |
| Financial liabilities | | | |
| Accounts payable and accrued liabilities | \$ 116,129 | \$ - | \$ 116,129 |

4. FINANCIAL INSTRUMENTS (Continued)

| | Amortized Cost | FVPL | Total |
|--|----------------|--------------|--------------|
| March 31, 2026 | | | |
| Financial assets | | | |
| Cash | \$ 2,088,898 | \$ - | \$ 2,088,898 |
| Other amount receivable | \$ 1,000 | \$ - | \$ 1,000 |
| Investment | \$ - | \$ 1,500,000 | \$ 1,500,000 |
| Financial liabilities | | | |
| Accounts payable and accrued liabilities | \$ 390,916 | \$ - | \$ 390,916 |

The fair values of these financial instruments approximate their carrying values because of their short- term nature.

5. CAPITAL MANAGEMENT

The Company defines capital management as the manner in which it manages its share capital. As at March 31, 2026, the Company's share capital was \$8,083,497 (December 31, 2025 - \$7,998,082).

There were no changes in the Company's approach to capital management during the period ended March 31, 2026. The Company is not subject to any externally imposed capital requirements.

The Company's objective in managing capital is to maintain the entity's ability to continue as a going concern, support the Company's normal operating requirements and to continue the exploration and evaluation of its mineral properties.

The Board of Directors does not establish a quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company regularly monitors and reviews the amount of capital in proportion to risk and future development and exploration opportunities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt or equity or similar instruments to obtain additional financing.

6. INVESTMENTS

| | March 31, 2026 | | | December 31, 2025 | | |
|---------------------------------|----------------|-------------|--------------|-------------------|-------------|--------------|
| | Shares | Share Price | Fair Value | Shares | Share Price | Fair Value |
| Guardian Exploration Inc. | 6,000,000 | \$0.25 | \$ 1,500,000 | 6,000,000 | \$0.22 | \$ 1,320,000 |
| Planet Green Metals Inc. | - | - | - | 75,000 | \$0.08 | 6,000 |
| Total Fair Value of Investments | | | \$ 1,500,000 | | | \$ 1,326,000 |

On October 16, 2024, New Break entered into an agreement with Planet Green Metals Inc. ("Planet Green") to sell a 100% interest in eight mineral claims located in Sheraton Township, Ontario in exchange for \$1,000 in cash and 100,000 common shares of Planet Green. The common shares were received on October 28, 2024, at an estimated fair value of \$9,500 based on their market price of \$0.095 per share. The cash payment, which was due by December 15, 2024, is still outstanding and included in other amounts receivable as at March 31, 2026 and December 31, 2025.

6. INVESTMENTS (Continued)

In December 2025, New Break sold 25,000 shares of Planet Green for net proceeds of \$1,905 and recorded a realized loss on the sale of \$470. In January 2026, New Break sold the remaining 75,000 shares of Planet Green for net proceeds of \$6,635 and recorded a realized loss on the sale of \$490. For the three months ended March 31, 2026, the Company recorded an unrealized gain of \$1,125 on the value of investment as a result of the reversal of a previously recorded unrealized loss (unrealized loss of \$2,000 for the three months ended March 31, 2025).

On April 10, 2025, New Break entered into a definitive asset purchase and sale agreement with Guardian Exploration Inc. (“Guardian”) (TSX-V: GX) to sell a 100% interest in the Sundog gold project and 60 drums of Jet A fuel (12,300 litres) warehoused in Arviat, Nunavut (the “Purchased Assets”). On April 30, 2025, New Break completed the sale of the Purchased Assets in exchange for a cash payment of \$75,000 and the receipt of 5,000,000 shares of Guardian at an estimated fair value of \$425,000, based on their market price of \$0.085 per share. New Break recorded a gain on sale of mineral claims of \$500,000 (see Note 7).

In addition, effective August 20, 2025, New Break sold certain exploration data with respect to the Esker gold project to Guardian in exchange for a cash payment of \$20,000 and the receipt of 1,000,000 shares of Guardian at an estimated fair value of \$130,000, based on their market price of \$0.13 per share. New Break recorded a gain on sale of exploration data of \$150,000.

The fair value adjustment of the investment in Guardian resulted in an unrealized gain of \$180,000 for the three months ended March 31, 2026.

7. MINERAL PROPERTIES (Continued)

- (1) The mineral claims were acquired from a private company, Exiro Minerals Corp. (“Exiro”) and included six single cell mineral claims (the “Voyageur Claims). These mineral claims, other than the Voyageur Claims, are subject to a 2% net smelter return (“NSR”) royalty in favour of Exiro, while the Voyageur Claims are subject to a 1% NSR royalty in favour of Exiro and a 1% NSR royalty in favour of the previous property owners. New Break can repurchase 50% of Exiro’s royalty at any time for a payment of \$1.0 million and can repurchase 50% of the royalty held by the previous property owners on the Voyageur Claims at any time for a payment of \$750,000.
- (2) The mineral claims acquired May 23, 2023, are subject to a 1.5% NSR royalty in favour of the vendors. New Break can reduce the NSR on these mineral claims to 0.5% at any time for a payment of \$750,000.

Effective October 22, 2021, the Company entered into a memorandum of understanding (“MOU”) with the Matachewan First Nation and Mattagami First Nation (collectively, the “First Nations”) as it relates to carrying out Prescribed Exploration Activities (“Prescribed Exploration), as such term is defined by the Ontario Mining Act, on the Moray property. As Prescribed Exploration is conducted, New Break is required to make payments to the First Nations equal to 2% of the cost of such exploration. During the three months ended March 31, 2026, \$9,338 was accrued as owing to the First Nations in respect of Prescribed Exploration completed during the period (March 31, 2025 - \$nil). Subject to New Break’s adherence to the terms and conditions of the MOU, the First Nations have agreed to support the Moray project while the MOU remains in force.

Ontario Junior Exploration Program

In each of 2022, 2023, 2024 and 2025, the Company’s Moray project has been accepted into OJEP, a program run by the government of Ontario, under which New Break has received a 50% reimbursement of certain exploration and evaluation expenditures incurred on the Moray property within the OJEP funding periods noted below. The reimbursements received and receivable, have been netted against exploration and evaluation expenditures in the periods in which the expenditures were incurred.

Sundog Gold Project

Effective September 1, 2021, New Break entered into an Inuit Owned Lands Mineral Exploration Agreement (“MEA”) with Nunavut Tunngavik Incorporated (“NTI”) for exclusive rights to a 100% interest in the minerals within, upon, or under, a 9,415-hectare exploration area on Inuit Mineral Title Lands parcel AR-35 in Kivalliq Region, Nunavut (the “Sundog gold project”).

On April 10, 2025, New Break entered into a definitive asset purchase and sale agreement with Guardian Exploration Inc. to sell a 100% interest in the Sundog gold project and 60 drums of Jet A fuel (12,300 litres) warehoused in Arviat, Nunavut (the “Purchased Assets”). On April 30, 2025, New Break completed the sale of the Purchased Assets in exchange for a cash payment of \$75,000 and the receipt of 5,000,000 shares of Guardian at an estimated fair value of \$425,000, based on their market price of \$0.085 per share and recorded a gain on sale of mineral property of \$500,000. Guardian also reimbursed New Break for the \$18,830 in Sundog annual rent paid to NTI on December 27, 2024, which was recorded in exploration and evaluation expenditures for the year ended December 31, 2024. New Break recorded this recovery against exploration and evaluation expenditures for the year ended December 31, 2025.

Guardian has assumed 100% of the responsibility for the obligations under the MEA including the annual exploration expenditure requirements and annual rent payments due to NTI, until a construction decision is made. New Break has retained an option to purchase a 20% interest in the Sundog gold project at any time for \$1, carried through to a decision to mine (the “Option”). Upon exercise of the Option, New Break and Guardian would enter into an agreement on standard industry terms to be mutually agreed upon, governing the joint operation on a 20/80 basis, respectively. New Break would only become responsible for funding 20% of mine development costs once a construction decision has been made. New Break can sell its 20% interest at any time, subject to Guardian having a right of first refusal to purchase it.

(c) Stock Options

The Company has a stock option plan to provide directors, officers, employees and consultants with options to purchase common shares of the Company. The maximum number of common shares reserved for issuance upon the exercise of options, is not to exceed 10% of the total number of common shares outstanding immediately prior to such issuance. The stock options have a maximum term of five years and a vesting period and exercise price determined by the board of directors. The exercise price of the stock options is fixed by the board of directors and may not be less than the market price of the shares at the time of grant, subject to all applicable regulatory requirements. As at March 31, 2026, 3,391,210 (December 31, 2025 - 2,748,210) additional options remain available for issuance under the Plan.

9. SHARE CAPITAL (Continued)

The following table reflects the continuity of stock options for the three months ended March 31, 2026 and the year ended December 31, 2025.

As at March 31, 2026, \$7,069 (December 31, 2025 - \$19,141) included in accounts payable and accrued liabilities was owing to related parties. These amounts are unsecured, non-interest bearing, with no fixed terms of repayment.

11. LOSS PER SHARE

Net loss per share has been calculated by dividing the net loss for the period by the weighted average number of common shares outstanding during the period. The effect of stock options and warrants was anti-dilutive and hence, the diluted loss per share equals the basic loss per share.

12. COMMITMENTS AND CONTINGENCIES

As at March 31, 2026, the Company had a commitment to spend \$206,138 (December 31, 2025 - \$1,009,800) on eligible Canadian Exploration Expenditures (“CEE”), from amounts raised from flow-through financing, by December 31, 2026.

Flow-Through

Flow-through common shares require the Company to incur an amount equivalent to the proceeds of the issued flow-through common shares on eligible qualifying CEE. Certain interpretations are required to assess the eligibility of flow-through expenditures that if changed, could result in the denial of renunciation. The Company has indemnified current and previous flow-through subscribers for any tax and related costs payable by them in the event the Company does not incur the required exploration expenditures. No amounts have been recorded in these financial statements for potential liabilities relating to these indemnities as a triggering event has not taken place.

On December 30, 2025, the Company issued \$1,009,800 in flow-through shares and recorded a flow-through share premium liability of \$252,450. During the three months ended March 31, 2026, the Company incurred \$803,662 (March 31, 2025 - \$85,939) in eligible CEE and recorded a flow-through share premium recovery of \$200,915 in the statement of loss (March 31, 2025 - \$nil).

Environmental

The Company’s exploration and evaluation activities are subject to laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its activities are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

Contingent Payments

Effective October 1, 2021, the Company became party to certain consulting agreements that contain clauses that could require additional aggregate payments of \$198,000 upon termination without cause and \$396,000 upon termination in connection with a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in these financial statements.

13. SUBSEQUENT EVENTS
