1. NATURE OF OPERATIONS AND GOING CONCERN

New Break Resources Ltd. (the “Company” or “New Break”) is a Canadian mineral exploration company currently engaged in the acquisition, exploration and evaluation of mineral properties in Canada. All of the Company’s mineral property interests are currently in the exploration and evaluation stage.

The Company was incorporated under the name “8861587 Canada Corporation” under the laws of Canada on April 18, 2014. Effective December 28, 2018, the Company changed its name to New Break Resources Ltd. On November 24, 2021, New Break was also registered as Extra-Territorial in Nunavut, Canada. On September 7, 2022, the Company became listed on the Canadian Securities Exchange (the “CSE”) and trades under the symbol NBRK. The address of the Company's corporate office and principal place of business is 110 Yonge Street, Suite 1601, Toronto, Ontario, M5C 1T4, Canada.

These financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern, and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements. Such adjustments could be material. It is not possible to predict whether the Company will be able to raise adequate financing or to ultimately attain profitable levels of operations. Changes in future conditions could require material write downs of the carrying values.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that the exploration programs will result in profitable operations. The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain mineral reserves that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the establishment of a sufficient quantity of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition of these assets.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of operations of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, unregistered claims, indigenous claims, and non-compliance with regulatory, environmental and social licensing requirements. The Company’s assets may also be subject to increases in taxes and royalties, renegotiation of contracts, political uncertainty and currency exchange fluctuations and restrictions.

The Company has not realized a profit from operations and has incurred expenditures related to property exploration, resulting in a cumulative deficit of \$3,479,386 as at June 30, 2025 (December 31, 2024 - \$4,037,440). The recoverability of the carrying value of mineral properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its property interests on an advantageous basis. Management cannot provide assurance that it will be successful in future financing activities or be able to execute its business strategy. As at June 30, 2025, the Company had current assets of \$951,218 (December 31, 2024 - \$302,823) to cover current liabilities of \$88,613 (December 31, 2024 - \$231,802), exclusive of non-cash flow-through share premium liability. These conditions indicate that material uncertainties exist that cast significant doubt on the Company’s ability to continue as a going concern.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Statement of Compliance

These condensed interim financial statements (the “financial statements”) have been prepared in accordance with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and include interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The preparation of these unaudited condensed interim financial statements requires management to make judgments, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. In management’s opinion, all adjustments considered necessary for a fair presentation have been included in these unaudited condensed interim financial statements. Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates. The significant judgments made by management applied in the preparation of these unaudited condensed interim financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended December 31, 2024. For a description of the Company’s critical accounting estimates and assumptions, please refer to the Company’s audited financial statements and related notes for the year ended December 31, 2024.

Basis of Presentation

These financial statements have been prepared on the historical cost basis, except for financial instruments designated at fair value through profit and loss, which are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

These financial statements do not include all the information required for full annual financial statements and therefore should be read in conjunction with the audited financial statements of the Company as at and for the year ended December 31, 2024. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company’s financial position and performance since the last audited annual financial statements.

These financial statements are presented in Canadian dollars, which is the Company's functional currency.

Changes in Accounting Standard Not Yet Effective

In April 2024, the IASB announced IFRS 18 *Presentation and Disclosure in Financial Statements* IAS -1 *Presentation of Financial Statements*, which sets out presentation and disclosure requirements for financial statements. The changes, which mostly affect the income statement, include the requirement to classify income and expenses into three new categories – operating, investing and financing – and present subtotals for operating profit or loss before financing and income taxes.

Further, operating expenses are presented directly on the face of the income statement – classified either by nature, by function or using a mixed presentation. Expenses presented by function require more detailed disclosures about their nature.

IFRS 18 also provides enhanced guidance for aggregation of disaggregation of information in the financial statements, introduces new disclosure requirements for management-defined performance measures and eliminates classification options for interest and dividends in the statement of cash flows. IFRS 18 is effective for annual periods beginning on or after January 1, 2027. The Company is assessing the impact of IFRS 18 on the financial statements.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (Continued)

In May 2024, the IASB issued amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures. The amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted. The Company is assessing the impact of these amendments on the financial statements.

Approval of the Financial Statements

These financial statements of the Company for the three and six months ended June 30, 2025 and 2024 were approved and authorized for issue by the Board of Directors on August 27, 2025.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENT

Use of Estimates and Judgment

The preparation of financial statements in conformity with IFRS requires that management make judgments, estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the financial statements. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities, profits and expenses. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements as at and for the year ended December 31, 2024.

4. FINANCIAL INSTRUMENTS

The Company manages its exposure to a number of different financial risks arising from its operations as well as its use of financial instruments including market risks (commodity prices, foreign currency exchange rate and interest rate), credit risk and liquidity risk through its risk management strategy. The objective of the strategy is to support the delivery of the Company's financial targets while protecting its future financial security and flexibility.

Financial risks are primarily managed and monitored through operating and financing activities and, if required, through the use of derivative financial instruments. The Company does not use derivative financial instruments for purposes other than risk management. The financial risks are evaluated regularly with due consideration to changes in the key economic indicators and up to date market information.

Market Risk

Market risk is the risk or uncertainty arising from possible market price movements and their impact on the future performance of the business. The Company may use derivative financial instruments such as foreign exchange contracts and interest rate swaps to manage certain exposures. These market risks are evaluated by monitoring changes in key economic indicators and market information on an ongoing basis.

4. FINANCIAL INSTRUMENTS (Continued)

Commodity Risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company monitors commodity prices as they relate to gold and the stock market to determine the appropriate course of action to be taken.

Liquidity Risk

Liquidity risk encompasses the risk that a company cannot meet its financial obligations in full. The Company's main source of liquidity is derived from its common stock issuances. These funds are primarily used to finance working capital, operating expenses, capital expenditures and acquisitions.

The Company manages its liquidity risk by regularly monitoring its cash flows from operating activities and holding adequate amounts of cash. The majority of the 2025 planned Moray exploration budget is being funded from flow-through funds raised in July 2024, from the \$200,000 reimbursement received from the Ontario government through the Ontario Junior Exploration Program ("OJEP") in March 2025 and from flow-through funds raised from private placements completed in June and July 2025. The 2025 operating expenses will be partially funded from the proceeds received in connection with the sale of the Company's interest in the Sundog gold project and related assets (see Notes 7 and 13) and from funds raised from a private placement completed in June 2025. There is no certainty of the Company's ability to complete additional financings.

As at June 30, 2025, the Company held current assets of \$951,218 (December 31, 2024 - \$302,823) to settle current liabilities of \$88,613 (December 31, 2024 - \$231,802), exclusive of non-cash flow-through share premium liability.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Cash bears interest at market rates. In the event that the Company held interest bearing debt, the Company could be exposed to interest rate risk. The Company does not have any interest-bearing debt. Other current financial assets and liabilities are not exposed to interest rate risk because of their short-term nature.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash. The Company has reduced its credit risk by investing its cash with a Canadian chartered bank.

The Company's financial assets and liabilities as at June 30, 2025 and December 31, 2024 were as follows:

	Amortized Cost	FVPL	Total
December 31, 2024			
Financial assets			
Cash	\$ 37,548	\$ -	\$ 37,548
Other amount receivable	\$ 186,597	\$ -	\$ 186,597
Investment	\$ -	\$ 8,000	\$ 8,000
Financial liabilities			
Accounts payable and accrued liabilities	\$ 231,802	\$ -	\$ 231,802

4. FINANCIAL INSTRUMENTS (Continued)

	Amortized Cost	FVPL	Total
June 30, 2025			
Financial assets			
Cash	\$ 220,398	\$ -	\$ 220,398
Other amount receivable	\$ 1,000	\$ -	\$ 1,000
Investments	\$ -	\$ 705,000	\$ 705,000
Financial liabilities			
Accounts payable and accrued liabilities	\$ 88,613	\$ -	\$ 88,613

The fair values of these financial instruments approximate their carrying values because of their short- term nature.

5. CAPITAL MANAGEMENT

The Company defines capital management as the manner in which it manages its share capital. As at June 30, 2025, the Company's share capital was \$4,158,888 (December 31, 2024 - \$3,957,582).

There were no changes in the Company's approach to capital management during the period ended June 30, 2025. The Company is not subject to any externally imposed capital requirements.

The Company's objective in managing capital is to maintain the entity's ability to continue as a going concern, support the Company's normal operating requirements and to continue the exploration and evaluation of its mineral properties.

The Board of Directors does not establish a quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business.

The Company regularly monitors and reviews the amount of capital in proportion to risk and future development and exploration opportunities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new debt or equity or similar instruments to obtain additional financing.

6. INVESTMENTS

	June 30, 2025			December 31, 2024		
	Shares	Share Price	Fair Value	Shares	Share Price	Fair Value
Guardian Exploration Inc.	5,000,000	\$0.14	\$ 700,000	-	-	\$ -

Total Fair Value of Investments			\$ 705,000			\$ 8,000

On October 16, 2024, New Break entered into an agreement with Planet Green Metals Inc. ("Planet Green") to sell a 100% interest in eight mineral claims located in Sheraton Township, Ontario in exchange for \$1,000 in cash and 100,000 common shares of Planet Green. The common shares were received on October 28, 2024, at an estimated fair value of \$9,500 based on their market price of \$0.095 per share. The cash payment, which was due by December 15, 2024, is still outstanding and included in other amounts receivable as at June 30, 2025 and December 31, 2024. New Break staked the claims in June 2024 at a cost of \$400 and recorded a gain of \$10,100 during the year ended December 31, 2024, in respect of the sale. The fair value adjustment of the investment in Planet Green resulted in an unrealized loss of \$1,000 during the three months ended June 30, 2025 and \$3,000 during the six months ended June 30, 2025.

6. INVESTMENTS (Continued)

On April 10, 2025, New Break entered into a definitive asset purchase and sale agreement with Guardian Exploration Inc. (“Guardian”) to sell a 100% interest in the Sundog gold project and 60 drums of Jet A fuel (12,300 litres) warehoused in Arviat, Nunavut (the “Purchased Assets”). On April 30, 2025, New Break completed the sale of the Purchased Assets in exchange for a cash payment from Guardian of \$75,000 and the receipt of 5,000,000 shares of Guardian at an estimated fair value of \$425,000, based on their market price of \$0.085 per share (see Note 7). New Break recorded a gain on sale of mineral property of \$500,000. The fair value adjustment of the investment in Guardian resulted in an unrealized gain of \$275,000 during the three and six months ended June 30, 2025.

Moray Gold Project

In September 2020, New Break acquired a 100% interest in certain unpatented mining claims in Zavitz, Hincks and Hutt Townships, southeast of Timmins, Ontario (the “Moray property”) from a private company, Exiro Minerals Corp. (“Exiro”) in exchange for \$100,000 in cash and 2,500,000 common shares of New Break. The 2,500,000 common shares were issued on July 15, 2020 at an estimated fair value of \$125,000.

On May 23, 2023, New Break acquired a 100% interest in certain additional mineral claims contiguous to the northern Moray property boundary (the “Beyers claims”) from three arm’s length vendors in exchange for \$80,000 in cash and 1,500,000 common shares of New Break at an estimated fair value of \$195,000, based on their market price of \$0.13 per share.

On July 21, 2023, New Break acquired a 100% interest in certain additional mineral claims in Zavitz Township contiguous to the western Moray property boundary (the “Zavitz claims”) from two arm’s length vendors in exchange for \$10,000 in cash and 300,000 common shares of New Break at an estimated fair value of \$33,000, based on their market price of \$0.11 per share.

Certain of the claims acquired from Exiro (“Exiro Claims”) are subject to a 2% net smelter return (“NSR”) royalty and certain other of the claims (“Voyageur Claims”) are subject to a 1% NSR royalty in favour of Exiro. The Voyageur Claims are also subject to a 1% NSR royalty in favour of a previous property owner. New Break can repurchase 50% of the Exiro NSR royalty at any time for a payment of \$1.0 million and can repurchase 50% of the Voyageur NSR royalty at any time for a payment of \$750,000. In addition, the Beyers claims are subject to a 1.5% NSR royalty in favour of the previous property owners. New Break can reduce the NSR to 0.5% at any time for a payment of \$750,000.

Effective October 22, 2021, the Company entered into a memorandum of understanding (“MOU”) with the Matachewan First Nation and Mattagami First Nation (collectively, the “First Nations”) as it relates to carrying out Prescribed Exploration Activities, as such term is defined by the Ontario Mining Act, on the Moray property. Under the terms of the MOU, New Break made payments of \$5,000 to each First Nation and on November 19, 2021, the Company granted stock options to each of the First Nations to purchase up to 50,000 common shares of the Company at a price of \$0.10 per share for a period of five years. As Prescribed Exploration Activities are conducted, New Break will make payments to the First Nations equal to 2% of the cost of such activities. No Prescribed Exploration Activities were completed during the three and six months ended June 30, 2025 or June 30, 2024. Subject to New Break’s adherence to the terms and conditions of the MOU, the First Nations agree to support the Moray Project while the MOU remains in force.

Ontario Junior Exploration Program

In each of 2022, 2023 and 2024, the Company's Moray project was accepted into OJEP, a program run by the government of Ontario, under which New Break has received a 50% reimbursement of certain exploration and evaluation expenditures for work and activities performed on the Moray property within the OJEP funding periods. The 2023 OJEP funding period ran from April 1, 2023 to February 15, 2024, while the 2024 OJEP funding period ran from April 1, 2024 to February 28, 2025. A total of \$200,000 was received in March 2025 and \$206,224 in March 2024 from the Ontario Ministry of Mines. The March 2025 receipt included \$185,597 receivable as at December 31, 2024 and \$14,403 in respect of \$28,806 of eligible expenditures incurred during the period ended February 28, 2025. The March 2024 receipt included \$191,225 receivable as at December 31, 2023 and \$14,999 in respect of \$29,998 of eligible expenditures incurred during the period ended February 15, 2024.

The reimbursements received and receivable, were netted against exploration and evaluation expenditures in the periods in which the expenditures were incurred.

Sundog Gold Project

Effective September 1, 2021, New Break entered into an Inuit Owned Lands Mineral Exploration Agreement ("MEA") with Nunavut Tunngavik Incorporated ("NTI") for exclusive rights to a 100% interest in the minerals within, upon or under a 9,415-hectare exploration area on Inuit Mineral Title Lands parcel AR-35 in Kivalliq Region, Nunavut (the "Sundog gold project").

On April 10, 2025, New Break entered into a definitive asset purchase and sale agreement with Guardian Exploration Inc. ("Guardian") to sell a 100% interest in the Sundog gold project and 60 drums of Jet A fuel (12,300 litres) warehoused in Arviat, Nunavut (the "Purchased Assets"). On April 30, 2025, New Break completed the sale of the Purchased Assets in exchange for a cash payment from Guardian of \$75,000 and the receipt of 5,000,000 shares of Guardian at an estimated fair value of \$425,000, based on their market price of \$0.085 per share and recorded a gain on sale of mineral property of \$500,000. Guardian also reimbursed New Break for the \$18,830 in Sundog annual rent paid to NTI on December 27, 2024, which was recorded in exploration and evaluation expenditures for the three months and year ended December 31, 2024. New Break recorded this recovery against exploration and evaluation expenditures for the three and six months ended June 30, 2025. Guardian has assumed 100% of the responsibility for the obligations under the MEA including the annual exploration expenditure requirements and annual rent payments due to NTI, until a construction decision is made. New Break has retained an option to purchase a 20% interest in the Sundog gold project at any time for \$1, carried through to a decision to mine (the "Option"). Upon exercise of the Option, New Break and Guardian would enter into an agreement on standard industry terms to be mutually agreed upon, governing the joint operation on a 20/80 basis, respectively. New Break would only become responsible for funding 20% of mine development costs once a construction decision has been made. New Break can sell its 20% interest at any time, subject to Guardian having a right of first refusal to buy New Break's 20% interest.

11. INCOME (LOSS) PER SHARE

Net income (loss) per share has been calculated by dividing the net income (loss) for the period by the weighted average number of common shares outstanding during the period. The effect of stock options and warrants was anti-dilutive and hence, the diluted income (loss) per share equals the basic income (loss) per share.

12. COMMITMENTS AND CONTINGENCIES

As at June 30, 2025, the Company had a commitment to spend \$77,656 (December 31, 2024 - \$165,000) on eligible Canadian Exploration Expenditures (“CEE”), from amounts raised from flow-through financing, by December 31, 2025 and a further \$216,750 from amounts raised from flow-through financing in 2025, by December 31, 2026.

Flow-Through

Flow-through common shares require the Company to incur an amount equivalent to the proceeds of the issued flow-through common shares on eligible qualifying CEE. Certain interpretations are required to assess the eligibility of flow-through expenditures that if changed, could result in the denial of renunciation. The Company has indemnified current and previous flow-through subscribers for any tax and related costs payable by them in the event the Company does not incur the required exploration expenditures. No amounts have been recorded in these financial statements for potential liabilities relating to these indemnities as a triggering event has not taken place. Upon issuance of the flow-through shares during 2024 in the amount of \$165,000 (2023 - \$625,700), the Company recorded an aggregate flow-through share premium liability of \$nil (2023 - \$93,635). As eligible CEE is incurred, the amount is drawn down as income through the statement of loss. During the three months ended June 30, 2025, the Company incurred \$47,339 (June 30, 2024 - \$65,202) in eligible CEE and recorded a flow-through share premium recovery of \$nil in the statement of income (loss) (June 30, 2024 - \$8,694). During the six months ended June 30, 2025, the Company incurred \$133,278 (June 30, 2024 - \$104,797) in eligible CEE and recorded a flow-through share premium recovery of \$nil in the statement of income (loss) (June 30, 2024 - \$13,973).

Environmental

The Company’s exploration and evaluation activities are subject to laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its activities are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

Contingent Payments

Effective October 1, 2021, the Company became party to certain consulting agreements that contain clauses that could require additional aggregate payments of \$198,000 upon termination without cause and \$396,000 upon termination in connection with a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in these financial statements.
